

balcony perimeter profile

foloborder™ BO

"L" shaped perimeter edge profile for the finishing and protection of the external cement borders. Designed for tile edges protruding over screed base. Leave the necessary space between the different elements for the thermic expansion covering the gap with the jointing pieces.

Illustrated scale dimension 1:1

LAYING INSTRUCTIONS:

- Choose the profile suitable for screed bed depth
- Position it along the edge of the surface to be tiled and install it while tiling.
