

balcony perimeter profile

foloborder™ BOS

Perimeter profile for the finishing and protection of the external cement borders designed for tile edges protruding over screed base. The system visible part is curved so to "bell cast" serving as a water drip element and also protecting FOLODRAIN 8 membrane laid under the screed and over the waterproofing layer. Leave the necessary space between the different elements for the thermic expansion covering the gap with the jointing pieces.

Illustrated scale dimension 1:1

LAYING INSTRUCTIONS:

- Choose the profile suitable for screed bed depth.
- Position it along the edge of the surface to be tiled and install it while tiling.

FOLOBORDER BOS-A* Powder Coated Aluminium

Profile coated on its entire surface with polyester powder to a depth of approx. 60 micron.

Material: Powder Coated Aluminium

Colours: 5 colours available

Length: 2,70 meters

External connection pieces: Code BOSE-A*

Jointing piece: Code BOSG-A*

FOLOBORDER BOS-IL Stainless Steel AISI 304 - DIN 1.4301

Stainless Steel AISI 304 ensures high resistance to most diluted chemical agents.

Material: Stainless Steel AISI 304

Length: 2,70 meters

External connection pieces: Code BOSE-IL

Jointing piece: Code BOSG-IL
