

profiles for joining existing floors

folostrip™ ST

FOLOSTRIP profile is generally fixed to link two adjacent floors of similar or different height and covering materials. The rounded shape of this strip profile grants a maximum height difference of 5 mm. To apply **FOLOSTRIP** means also to cover up the slight imperfections which may occur during the laying job. It can also be used as a terminal profile provided that the thickness of the surface material does not exceed 5 mm. Illustrated scale dimension 1:1

Installation for self-adhesive version:

- 1) Check if support is sound, smooth, clean, dry and free from grease and loose materials.
- 2) Cut profile to the required length and remove the protective film.
- 3) Press downwards on the profile until it is fixed firmly. Do not hammer.

Installation for pre-drilled version:

- 1) Cut profile to the required length and place the mark on the surface of the profile pre-drilled holes.
- 2) Insert and fix the flare head screws.

FOLOSTRIP ST-OL* Polished Brass

A laminate polished brass flat bar which is resistant to light mechanical and chemical impacts and lasting wear. The brass article allows an extremely elegant decorative finish to homes and is available in pre-drilled or self adhesive versions. Available also in the heavy duty version, thickness 1,3 mm, Code STP 30 OLA/F.

Material: Laminated Polished brass
 Length: 2,70 metres
 Lengths ☒: 0,90 / 1,35 m
 Widths: 18, 30, 35 mm
 Profile covered with protective film strip
