

terminal profile for mismatching floors ranging between 12÷18 mm

multiclip® CLF 490

Jointing terminal profile for mismatching floors ranging between 12 ÷ 18 mm and over. To be used with at least two fixing clips. This terminal profile allows an easy junction between ceramic or parquet floors and existing surfaces or with carpet or vinyl lower coverings. The multi groove cut clip insert allows the top profile to be pressed and interlocked with the base unit, while a slight swivel pivot action is allowed in order to follow the solicitations, especially on floating floors, and to match the two floor surfaces perfectly. Patent Pending. Illustrated scale dimension 1:1

MULTICLIP® CLF 490 A* Anodised Aluminium

The profile is anodised aluminium with a Silver, Gold or Bronze colour finish. The aluminium has an approx. 20 micron coating. The profile is adaptable to several coverings thanks to its versatility characteristics.

Mounts with Clips CL 80 P + aluminium base CLB 80 ANF / ANT.

Material: Extruded Anodised aluminium
Length: 2,70 meters
Lengths ☒: 0,90 / 1,35 meters

MULTICLIP® CLF 490 * Aluminium Wood Cladding Finish

Profile with a melamine wood tone in 6 different varieties. Good tolerance to abrasion comparable to most melamine coverings. The melamine embossing on the aluminium is particularly smooth therefore it remains quite clean and blends well with the flooring tone.

Mounts with Clips CL 80 P + aluminium base CLB 80 ANF / ANT.

Material: Aluminium laminate covered
Length: 2,70 meters
Lengths ☒: 0,90 / 1,35 meters

MULTICLIP® CLF 490 OL Polished Brass

Innovative: the new modular system Multiclip® allows to use also the traditional brass finishing profiles, as the clips in Resinil avoid binding. Solid polished brass for a lasting classic finish and a very good resistance to mechanical impacts.

Mounts with Clips CL 80 P + aluminium base CLB 80 ANF / ANT.

Material: Extruded Polished brass
Length: 2,70 meters
Lengths ☒: 0,90 / 1,35 meters
Profile covered with protective film
