

perimeter joint terminal
profile – for proper
dilatation spacing

multiclip® CLP 270

MULTICLIP® CLP 270 A* Anodised Aluminium

The profile is anodised aluminium with a Silver, Gold or Bronze colour finish. The aluminium has an approx. 20 micron coating. The profile is adaptable to several coverings thanks to its versatility characteristics.

Mounts with Clip CL 80 P + aluminium base CLB 80 ANF / ANT.

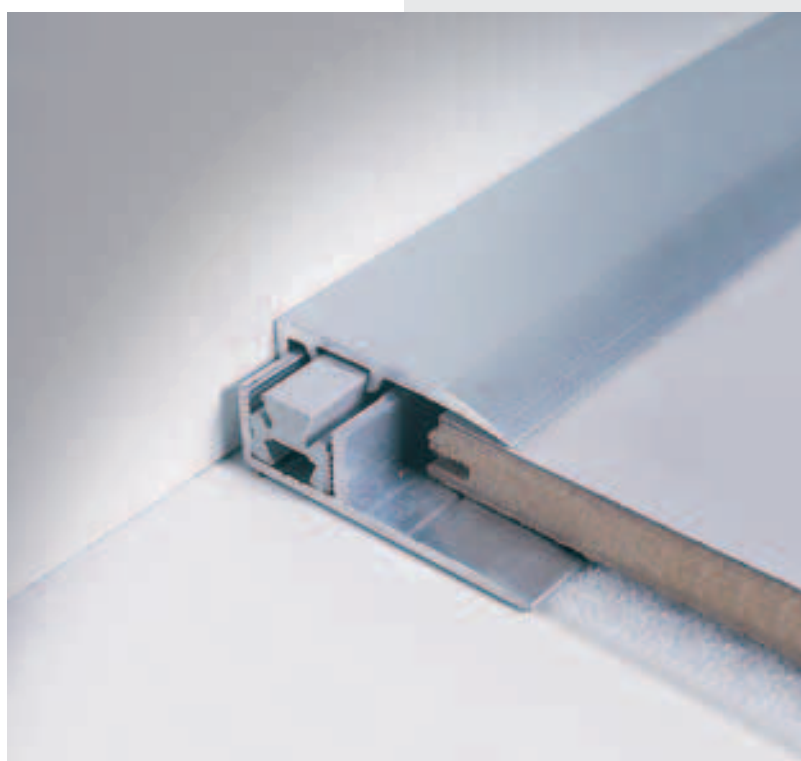

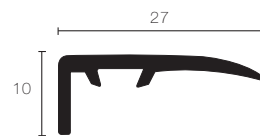

MULTICLIP® CLP 270 * Aluminium Wood Cladding Finish

Profile with a melamine wood tone in 6 different varieties. Good tolerance to abrasion comparable to most melamine coverings. The melamine embossing on the aluminium is particularly smooth therefore it remains quite clean and blends well with the flooring tone.

Mounts with Clip CL 80 P + aluminium base CLB 80 ANF / ANT.

Perimeter joint in aluminium. It provides movement joint avoiding the use of skirting board, thanks to its 16 mm internal cavity with a fixing bar that allows on average ± 5 mm floor movement. It is also suitable for trimming sliding doors tracks and entrance mattings. Patent Pending.

Illustrated scale dimension 1:1

Material: Extruded Anodised aluminium
Length: 2,70 meters

Material: Aluminium laminate covered
Length: 2,70 meters
